

# GROWING POPULAR IN SANTA FE YARDS

Mr. J. A. Hampton, Car Repairer, Tells Some Things About Plant Juice.

"I am telling all the boys in the Santa Fe yards about Plant Juice," said Mr. J. A. Hampton, car repairer for the Santa Fe and whose home is 2088 Burr street, E. Worth. Hampton is one of the best known and most popular employees of the shops. "Yes, I am telling them about Plant Juice and what it has done for me. A lot of my friends are taking Plant Juice. I bought three more bottles last night; it sure has done me a world of good. I suffered with kidney and stomach trouble and Plant Juice is the only thing that has ever brought me permanent relief. Those who take Plant Juice find immediate relief and a permanent cure. To begin with your appetite will improve, food will digest better, you will sleep better, you will lose that feeling of languor and depression, you will feel brighter and more fit for the day's work. If you suffer with kidney, liver, nerve, or stomach ailments Plant Juice will do you more good than anything you have ever taken; it will put new life and vigor into you. Do not delay, call today, and get a bottle of Plant Juice. The dealer of the Plant Juice men will tell you about it. Your time will be well spent."

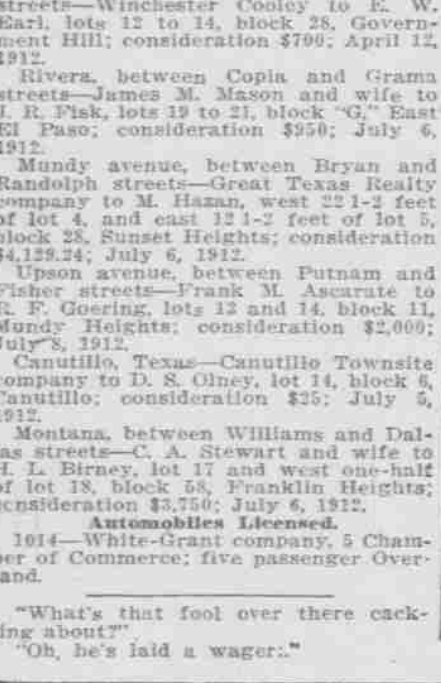

## DAILY RECORD

**Building Permits.**  
To L. F. Clark, to build a Congregational church, corner of Rio Grande and Williams streets; estimated value, \$2,000.  
To L. F. Clark, to erect two brick residences, corner of Arizona and Noble streets; estimated cost, \$4,000.  
To J. R. Flisk, to erect a frame garage, corner of Rio Grande and Ance streets; estimated value, \$75.  
To J. R. Flisk, to remodel garage, 422 San Antonio street; estimated cost, \$500.

**Deaths Filed.**  
Canutillo, Texas—Canutillo Townsite company to Myrtle M. Montfort, lots 4 and 5, block 6, Canutillo; consideration \$110; July 1, 1912.  
Commerce, between alley and Warren street—J. H. Bailey and J. H. Bailey to A. D. Martin, lots 5 and 9, block "B," Bassett's addition; consideration \$1,250; June 18, 1912.  
Texas, between Brown and Noble streets—Springer Furniture company to Lina D. Collins, lots 28 and 29, block 19, Franklin Heights; consideration \$2,000; July 3, 1912.  
Oxford, between Houston and Lamar streets—Winchester Coolsy to E. W. Earl, lots 12 to 14, block 28, Government Hill; consideration \$700; April 12, 1912.  
Rivers, between Copia and Gramma streets—James M. Mason and wife to J. R. Flisk, lots 19 to 21, block "G," East El Paso; consideration \$950; July 6, 1912.  
Mundy avenue, between Bryan and Randolph streets—Frank M. Austin to R. F. Goering, lots 12 and 14, block 11, Mundy Heights; consideration \$2,000; July 3, 1912.  
Canutillo, Texas—Canutillo Townsite company to D. S. Olney, lot 14, block 6, Canutillo; consideration \$25; July 6, 1912.  
Montana, between Williams and Dallas streets—C. A. Stewart and wife to R. B. Birney, lot 18, block 58, Franklin Heights; consideration \$750; July 6, 1912.  
1014—White-Grant company, 5 Chamberlain of Commerce; five passenger Overland.

"What's that fool over there cackling about?"  
"Oh, he's laid a wager."

## GIVES MEN THIS VITALITY OF YOUTH

Vitality is the thing which makes success. It gives men that compelling power which sends them forth eager and equipped to meet and overcome all obstacles; it is the thing which gives the young soldier courage to face death; it is the thing which inspires and holds his wife or sweetheart's love and faith. No matter what your age, you can enjoy this same vital power; you can regain the vigor you have lost; no matter what indiscretion may have sapped your strength. Vitality makes you "young" and keeps you "young." From an intimate and studious observation of thousands of devitalized men, I say to you that VITALITY or the lack of it means all the difference between a manly man and a half man. The man who bubbles with vital power will exert a pleasant influence upon all with whom he comes in contact; people are naturally attracted to him. Lack of vitality is a negative condition, and it even repels. You may be a BELT all night, it sends a great, glowing, health-giving current of electro-vitality into your nerves, blood and organs; it takes all the "kink" out of your back and all the coward out of your make-up; it puts you right up in the "feeling fine" class and keeps you there. No stimulation, no false results; just a sure return to manhood and courage. The special electro-vital suspensory is free with each Belt. Recommended also for rheumatism, pain in the back, kidney, liver, stomach and bladder disorders. It makes you feel young and keeps you feeling young forever.

## Let Me Send You This Book FREE

It fully describes my Health Belt and contains much valuable information. One part deals with various ailments common to both men and women such as rheumatism, kidney, liver, stomach, bladder and other troubles. The other part is a treatise on vitality and how to regain and keep it. Both sent upon application, free, sealed, by mail.

If in or near this city, take the time to drop in and see the man who may see, examine and try the Belt. No charge for professional advice, either at my office or by mail. If you can not call, fill in the coupon and get the book free by return mail. It is better than a fortune for any one needing new vigor.

DR. E. A. SANDEN CO., 1261 Broadway, New York, N. Y.

Dear Sirs—Please forward me your Book as advertised, free.

# The Modern Attila

(By Garrett P. Serviss.)  
VERY day the reasons for making war upon the house fly increase in number. One of the latest indictments against this disseminator of infection and death is that he carries about with him the germs of infantile paralysis, as well as those of typhoid, consumption and other communicable diseases. It is now believed, says Dr. Thomas D. Wood, in Good Housekeeping magazine for July, that germs of infantile paralysis may live for 48 hours, at least, in the body of a fly.

This insect Attila, whose march is more destructive than that of the scourge of ying Rome, who declared that grass could not grow where his horse had passed, does not appear in his true character, when we see him quietly sitting in a window, carelessly his shaggy wings with his hind legs or bobbing his head while he fondles the back of his neck, as if he were taking a sunbath and hugely enjoying it. His diminutive body covers too small an area in the field of the eye to enable us to see its formidable details. We must get optically near him, with the aid of a microscope, in order to see him in his true colors.

Then, when all his dimensions are magnified many diameters, we behold a monster as terrifying as any of the dinosaurs of geological antiquity. Look in the photograph here at the hairy, bulbous, covered with sharp spines; at the powerful legs, with their long, thin spines at the joints; at the huge, repulsive head, with its gigantic hemispherical eyes, and its glittering facets of the great compound eyes, the most extraordinary organs of vision in the animal kingdom; at the big, club-like, extensible feeler, which the insect uses to explore the sources of its poisonous diet, and, finally, at the strong wings, ready spread for instant veritable flight, which enable it to carry the germs of disease that it has absorbed with express train speed to its destination.

**A Verifying Description.**  
Gibben has described the historical Attila as exhibiting the "genuine deportment of a modern Calmuck with a large head, a swarthy complexion" and a custom of fiercely rolling his eyes, as if he wished to enjoy the terror which he inspired." The description is not inapplicable to this Attila of the insect world.

If, after all that has been said by medical science, you yet have any doubt about the duty of destroying every fly you meet, then consider the momentary untrustworthy facts: "On one fly as many as 6,000,000 disease-causing bacteria have been found, and in a recent experiment the average number of germs found on the bodies of each of 114 flies was 1,250,000." Every female fly that is allowed to live usually becomes, in the course of the summer, the progenitor of 8,000,000 descendants that actually survive as carriers of disease!

Here is the picture of a fly reproduced by permission from Good Housekeeping Magazine for July. The picture accompanies a valuable article on the dangers of the fly pest, written especially for Good Housekeeping.

Keeping by Thomas D. Wood, M. D.

From a model in the Milwaukee (Wis.) Public Museum.

Keep your house clear of flies, and above all, keep them out of the kitchen and the pantry. Destroy, or disinfest, every grain, every summer, every pull or pan and every heap of refuse in which they can breed. After all, it is not so very difficult to get rid of flies.

## MARRIED LIFE THE THIRD YEAR

By MABEL HERBERT URNER

Helen Is Much Impressed With the Gloomy Grandeur of the London Hotel.

IT was a typical London hotel room. Large, dark, high-ceilinged, and the furnishings had an air of massive solidity.

There were long red velvet hangings at the window, and the bedstead, wardrobe and dressing table were of heavy English walnut. Over the open grate was a broad black marble mantel.

The velvet window hangings and marble mantel seemed to Helen particularly impressive. They gave the room an atmosphere of gloomy grandeur, which satisfied her ideas of an old and famous London hotel.

"Dear, dear, I have never seen a light!" Helen Warren, frowning into the mirror before which she was adjusting her tie. "Push back those curtains there."

Helen drew back the heavy hangings, but outside was only a grey stone wall. It might have been dusk instead of 8 in the morning. Then she turned on the electric light, but for all that large room there was only one small bulb dropped on a wire from the center of the ceiling.

Warren looked up with a contemptuous, "Huh, that's a brilliant illumination!"

## GIVES MEN THIS VITALITY OF YOUTH

Vitality is the thing which makes success. It gives men that compelling power which sends them forth eager and equipped to meet and overcome all obstacles; it is the thing which gives the young soldier courage to face death; it is the thing which inspires and holds his wife or sweetheart's love and faith. No matter what your age, you can enjoy this same vital power; you can regain the vigor you have lost; no matter what indiscretion may have sapped your strength. Vitality makes you "young" and keeps you "young." From an intimate and studious observation of thousands of devitalized men, I say to you that VITALITY or the lack of it means all the difference between a manly man and a half man. The man who bubbles with vital power will exert a pleasant influence upon all with whom he comes in contact; people are naturally attracted to him. Lack of vitality is a negative condition, and it even repels. You may be a BELT all night, it sends a great, glowing, health-giving current of electro-vitality into your nerves, blood and organs; it takes all the "kink" out of your back and all the coward out of your make-up; it puts you right up in the "feeling fine" class and keeps you there. No stimulation, no false results; just a sure return to manhood and courage. The special electro-vital suspensory is free with each Belt. Recommended also for rheumatism, pain in the back, kidney, liver, stomach and bladder disorders. It makes you feel young and keeps you feeling young forever.

ing influence upon all with whom he comes in contact; people are naturally attracted to him. Lack of vitality is a negative condition, and it even repels. You may be a BELT all night, it sends a great, glowing, health-giving current of electro-vitality into your nerves, blood and organs; it takes all the "kink" out of your back and all the coward out of your make-up; it puts you right up in the "feeling fine" class and keeps you there. No stimulation, no false results; just a sure return to manhood and courage. The special electro-vital suspensory is free with each Belt. Recommended also for rheumatism, pain in the back, kidney, liver, stomach and bladder disorders. It makes you feel young and keeps you feeling young forever.

**A New Rule.**  
As they crossed Helen was astonished to find the traffic going down on the left side of the street.

"Now that's something you must look out for. You've got to be mighty careful in crossing the street. Everything goes to the left instead of to the right."

"Helen gazed up in amazement. 'You mean they drive to the left?'"

"That's it. And you've got to keep that constantly in mind and be mighty alert if you don't want to get run over."

"But dear, surely the driving laws must be uniform all over the world. Why think if a chauffeur came along here and got bewildered?"

"Yes, that's happened several times and there's been a jolly snarl. We think the English should conform to our rules, and they think we should conform to theirs. So there you are!"

He paused not before a new car, which were displayed raw chops and lobsters and joints of mutton and beef.

"Here is the chop house I spoke of. It's famous for its grill. We'll go there for dinner some night."

# THE PASO HERALD An Insect "Scourge of God" More Terrible Than King of the Huns By G. P. Serviss

Keep the bulk of their forces outside, and you can deal with the few that get in. The Chinese wall, smile at it as you will in these days of mighty artillery and army aeroplanes, was a very effective barrier to the barbarians by her walls, although they did occasionally penetrate them.

"But defence by screens is not enough. Go out and meet the enemy on his own ground. Remember Cato's watchword, 'Delenda est Carthago.' The great Roman saw that his country could never be saved as long as Carthage was permitted to survive. Victories were not enough; to kill a few hundred thousand Carthaginians would not save Rome; Carthage must be exterminated, exterminated she was. The war against flies, like Rome's war against the Carthaginians, is a struggle for life. We have the enemy now; we know where he inhabits and where he recruits his forces. Every stable, every refuse heap and every garbage hall is a Carthage, swarming with enemies, and preparing new armies of invasion. Delenda est Carthago!"

We are now too far advanced upon the summer to hope to arrest the scourge by the slaughter of individual flies. Too many were allowed to escape through neglect or through mis-taken mercy, in the first warm days of spring. The personal warfare must still be kept up with ever-increasing vigor, but now the large measures must also be employed—screens, fly traps and disinfection. Still, a great deal has been done. New York is more free from flies now than it was a year ago; next year it may, if we will, be as nearly flyless as those swarthy towns of which I wrote a few weeks ago.

You will find in Good Housekeeping magazine directions for the use of screens, that they will not even attempt the assault of your defenses. It is necessary rather a vivid impression of the critical necessity of eternal vigilance in this matter from reading this warning of Dr. Serviss.

With power has cookery there are no cooking dishes to wash, and this fact makes the new way of cooking especially popular in hot weather.

Last autumn Soyer, the late chef of the famous Rookers club in England, announced that he had developed a new method of cooking. Instead of using crocks and pans, he put the food to be cooked in a paper bag, sealed it, and put it in the oven, and in due time brought forth an exquisitely prepared viand.

First he was laughed at, then the housewife with a taste for experiments tried the new fangled paper bag cookery with some success.

Not that the weather has come, there is another reason for using paper bags instead of pans and dishes to cook with.

Paper bag cookery is exceedingly simple, and the cook who only has one or two people to prepare for finds this method of saving in time, material and energy.

In cooking with the paper bag there is no smell and no steam. Food can be put into the bag and cooked without loss by evaporation.

Many many people have thought that any kind of a paper bag would do, and have tried cooking in paper bags which once contained sugar, coffee, but the results were quite disastrous. The bag burned up or the food spoiled, and there was a disagreeable taste to anything that was left.

You must have a bag made of material that is absolutely pure and strong, and it must be a bag that doesn't leak. Choose your bag according to the amount of food to be cooked, and put a small quantity into a big bag. The bag should be placed in the oven. Any oven will do. If you are using a gas stove don't place the bag near the burner. It should be at least a couple of inches from the flame.

After the food to be cooked is put into the bag, seal the bag by turning the top and fastening with the ordinary clips used for typewriting paper, etc. A great many women use pins, or buttons, or the pin used with the food, so that it is better to use clips. They can be saved and used again, and again. If you want to know when the food is done, open your oven door, prick your bag open with a needle, or touch it to see if it is soft, according to the food cooked.

It is so very easy to overcook the food, and you are much more likely to have things underdone. If you want to save time and labor and dishwashing, by cooking with paper bags, begin with something very simple; something that can't very well be overcooked, such as meat in half; if old potatoes are used, quarter them after peeling. Put sufficient potatoes to feed the number of persons, placing the potatoes in the paper bag; add a teaspoonful of cold water and some chopped parsley. Fasten the bag carefully with two or three wire clips; then put it in the oven, laying it on the broiler; if the oven is hot it ought to take about 30 minutes to cook the potatoes.

**Preparing Eggs.**  
Except when you are using water in a paper bag, the bag should be well buttered inside. As excellent way of preparing eggs in a paper bag is made like this: First butter the bag well; then pour into it about three tablespoons of thick cream, or a thick layer of thick cream of canned tomatoes flavored with salt and pepper. Add a small lump of butter, salt, and a dash of sugar. Cook for about 10 minutes. Now cut a hole in the center of the bag and break into this hole one entire egg. Put the bag back in the oven and cook for about three minutes. Serve in the bag. This makes a nice lunch with tea, and it is certainly simple to prepare. Fill as many individual bags as there are people.

Until you have become expert paper bag cookery don't try to cook soup, macaroni or any of the large vegetables, like cabbage, cauliflower, artichokes, etc. Experiments on similar dishes, one of which is Irish stew. For three people cut up two pounds of mutton into small squares. Pepper and salt thoroughly; add several large onions, a few string beans or some other vegetable, and add several small potatoes, peeled and cut in half.

Peas are cooked in paper bags by adding a pint of water to every pint of peas. A few leaves of lettuce are very nice cooked with peas, and just before serving add a little butter and sugar. Cook in a paper bag for 45 minutes.

## CORONA CELEBRATION IS ATTENDED BY MANY

Corona, N. M., July 10.—The celebration here was largely attended, a number of people coming from Duran, Vaughn and Cedarvale.

C. C. Davidson was up from Engle to visit friends and relatives. Miss Betty Beal has been sick for several days, but is improving rapidly.

Miss Hattie Brown has left for El Paso, after spending a week visiting Mrs. J. T. Davidson.

Mr. Doug and Mr. DuBoise have returned from Las Vegas.

Miss Ada Rountree has been spending the week with the Misses Sultemier.

John Dolan has returned from a short trip to Albuquerque, Santa Fe and Las Vegas.

Miss Agnes Bennett, of Three Rivers, is visiting Miss Gladys Bond, of this place.

Left Rountree, formerly a business man of this place, but now of Mexico, is visiting friends here for a few days. Melvin Franklin, commissioner of this precinct, went to Carrizozo to be present at the regular term of commissioners' court.

George Clements is in Carrizozo this week on business.

Will and Frank Sultemier are spending a few days visiting in El Paso.

The E. P. & S. W. water service crew is here doing some repairing and remodeling the pipe line.

There will be horse races on the 15th of this month between Lon Jenkins' horse and Bill Ware's mare, of Roswell, 500 yards for a good purse.

Zeb Brown and his family are going to town and now occupies the Ortiz residence.

Clarence Parker and family, of Pinalo, N. M., were here visiting friends. They returned immediately after the 4th, accompanied by Miss Little.

Miss Edna Parker is visiting Miss Alice Furnace, Terolote, N. M., for a few days.

## Duffy's Pure Malt Whiskey

Should Be In Every Vacation and Traveling Bag

It is invaluable in the hot summer weather to keep the stomach and system in a good healthy condition so that they will be able to ward off the diseases, as is indigestion, cramps, cholera, dysentery and diarrhoea, which are so common. If any of these complaints have already been taken hold it will bring quick relief. You cannot afford to be without it.

The BEST FOR ALL EMERGENCIES

Sold in SEALED BOTTLES ONLY by druggists, grocers and dealers, or direct, \$1.00 per large bottle. Be sure you get DUFFY'S.

Write for free medical booklet and doctor's advice.

THE DUFFY MALT WHISKY COMPANY, ROCHESTER, N. Y.

# Are You FAT?

I Was ONCE

I Reduced Myself

I was Fat, Uncomfortable, Looked Old, Felt Miserable, suffered with Rheumatism, Asthma, Neuritis. When I worked or walked, I puffed like a Porpoise. I took every advertised medicine I could find. I Starved, Sated, Exercised, fasted and changed climate but I ruined my digestion, felt like an invalid, but steadily gained weight. There was a single Plan or drug that I heard of that I did not try. I failed to reduce my weight. I dropped society, as I did not care for the butt of all the jokes. It was embarrassing to have my friends tell me I was getting stout, as no one knew it better than myself.

**SOMETHING HAD TO BE DONE.**  
I began to study the cause of F.A.T. When I discovered the cause I found the remedy. The French Method gave me an insight. Improved on the French method, I added a few more, added more pleasant ones, and then I tried my plan on myself for a week. It worked like magic. I could have sworn I was a new man.

**SCREAMED WITH JOY.**  
At the end of the first week when the scales told me I had lost 10 pounds, my simple, easy, harmless, Drugless Method. It was a pleasure then to continue until I reached my normal weight. I felt fifteen years younger. I look fifteen years younger. My Double Chin has entirely disappeared. I can walk or work now. I can climb a mountain. I am normal in size. I can weigh just what I want to weigh. I am master of my own body now. I did not starve, but ate all I wanted to. I did not take Sweet Baths. I did not take any other medicine. Now I am going to help others. I found the Simple, Safe, Common Sense WAY of reducing my weight and I apply it. I have tried it on others. My Doctor says I am a perfect picture of health now. I am no longer ailing. I am now a happy, healthy, normal man.

I have written a book on the subject. If you are fat, I want you to have it. It will tell you all about my Harmless, Drugless Method. To all who send me their name and address, I will send it free, long as the present supply lasts. It will save you money. Save you from Harmful Dieting. Save you from Starvation Diets. Harmful Exercises, possibly save YOUR LIFE. It is yours for the asking without pennies. I will send your name and address. A Postal Card will do and I'll be glad to send it to you. You can quickly learn how to reduce your weight. Write to me today. My advertisement may not appear again in this issue, but I will be glad to hear from you.

**HATTIE BIEL, 203 Barclay, Denver, Colo.**

cut in half, and a bunch of herbs. Put all this in a bag with a tumbler of cold water; seal the bag and lay it on the broiler with the steam side up. The steam will cook the meat and the herbs. Cook the stew for about 40 minutes.

**Odds and Ends.**  
The paper bag is an excellent way of cooking up odds and ends and leftovers. Left over food, especially meat or fish when served a second time, is usually dry and that is not appetizing. By cooking it in the paper bag the juice is not allowed to evaporate and a little sauce is added to the meat or fish, permeated with a delicious flavor. When you have any left over fish, place it in a well buttered bag, add a little sweet cream, some chopped herbs seasoning with pepper and salt. If desired, a little cheese may be added with the cream. This should only take about 10 minutes to cook even if the oven is sufficiently hot.

Peas are cooked in paper bags by adding a pint of water to every pint of peas. A few leaves of lettuce are very nice cooked with peas, and just before serving add a little butter and sugar. Cook in a paper bag for 45 minutes.

## LITTLE BOBBIE'S PA

By WILLIAM F. KIRK.

HUSBAND, said Ma the other night, you remember you and me was speaking about little Bobbie?

Then Pa looked at Mister Upton kind of funny. Pa has fat hands, he's got a nervous habit, so he didn't like what Mister Upton said about nervous hands. I don't see where this nervous hands is a sign of nervousness. Pa, Monkeys have thin, nervous hands. Let me tell you something, said Pa. I have been a newspaper man for many years, & the way I did a fairly good one. If I was ever to teach a lot of boys to be newspaper men, this is the course of study I would lay out for them:

1. How to please the editors.  
2. How to get an order for advance money from the editors.  
3. How to explain your absence to the editors.  
4. How to get a editor to talk you out.

That is all, said Pa, but I don't want little Bobbie to be a newspaper man anyway. Goodnite, Mister Upton.

ter Upton. Thin, nervous hands are always to be found on rulers, that is, on born rulers.

Then Pa looked at Mister Upton kind of funny. Pa has fat hands, he's got a nervous habit, so he didn't like what Mister Upton said about nervous hands.
